## PROFILE SUMMARY

Results-driven Software Engineer with expertise in Angular, Next.js, Node.js, and Spring Boot, specializing in building scalable, high-performance web applications. Proficient in Kubernetes for application scaling and deployment, ensuring optimal reliability and efficiency. Skilled in ServiceNow development and integrations, delivering enterprise-grade solutions. Experienced in cloud deployments and following SAFe Agile sprints to drive continuous delivery.

## EXPERIENCE

### Software Development Engineer

July 2023 – Present

*Amadeus, Bengaluru, Karnataka*

- Led the complete *Angular* migration and rebranding of *Amadeus Direct*, enhancing performance and user experience.
- Spearheaded the rebranding of *Agency* in *Amadeus Service Hub* and revamped Agency Admin visibility using Spring Boot, improving access control and usability.
- Optimized the scalability of *Amadeus Service Hub* by leveraging *Kubernetes*, enhancing system performance and reliability.
- Contributed to the migration of *Amadeus Service Hub* (ASH) to *ServiceNow*, streamlining service management and automation.

### Full Stack Developer Intern

January 2023 – June 2023

*Amadeus, Bengaluru Karnataka*

- Led the Angular migration of the profile header from legacy JSP, modernizing the UI and improving maintainability.
- Conducted benchmark tests, demonstrating a 68% performance improvement in profile header load times.
- Ensured a seamless transition to the new architecture, minimizing downtime and enhancing user experience.

## PROJECTS

### Otomato Automation Builder (Next.js 14, Stripe, Clerk Authentication) (link)

- Developed a drag-and-drop node builder to streamline workflow automation, cutting time-to-market by 25%.
- Integrated Google Drive, Slack, Discord, and Notion, boosting collaboration, reliability, and innovation.

### Cafe Management System (Angular & Spring Boot) (GitHub)

- Designed and implemented a Cafe Management system. Deployed it via an AWS ec2 instance.

## EDUCATION

### BTech in Computer Science Engineering

August 2019 – June 2023

*Manipal Institute of Technology, Manipal*

CGPA: 8

## SKILLS

### Front-End Languages & Markup:

JavaScript, TypeScript, HTML5, CSS3, SCSS

### Frameworks & Libraries:

Angular, Vue, React.js/Next.js, Servicenow, Tailwind CSS

### Backend & Serverless:

Node.js, Django, RESTful APIs, Python, Git/GitHub

### Deployment & Build Tools:

AWS EC2 Instance, Cloudflare, CDN, Docker & Kubernetes, Vercel

### Performance & Accessibility:

Core Web Vitals, Lighthouse, Responsive Design, WCAG Standards

### AI & Automation:

GitHub Copilot, GPT-based Code Generation, Chatbot Dev

### OS & IDEs:

Linux (Arch), Windows, macOS, Visual Studio Code, Eclipse

### Soft Skills:

Collaboration, Problem-solving, Communication
